PROFESSIONAL SUMMARY

Automation Engineer and Backend Developer with 5+ years of experience designing enterprise automation solutions, compliance workflows, and scalable web applications. Proven track record of delivering high-impact automation initiatives using Java, Spring Boot, PostgreSQL, REST APIs, and Shell Scripting, including solutions that reduced manual effort by 6+ hours daily, improved regulatory response times by 90%, and reduced filing errors by 80%. Experienced Tech Lead with expertise in workflow automation, data reconciliation, regulatory compliance systems, and application modernization.

TECHNICAL SKILLS

Languages: Java(17), Angular, Python(basic), JavaScript, Shell Scripting, Adobe Experience Manager (AEM 6.5), HTL (Sightly), HTML, CSS, SCSS
Backend & APIs: Spring Boot, REST APIs, Microservices
Databases: PostgreSQL, Oracle, MySQL, Impala
DevOps: CI/CD Pipelines, Git, Jenkins, Linux, Release Management
Tools & Platforms: NGINX, CDP Impala, Postman

WORK EXPERIENCE

TATA CONSULTANCY SERVICES | System Engineer / Tech Lead (Jul 2023 – Present)

• Lead the design and development of Additional Surveillance Measure (ASM) and Enhanced Surveillance Measure (ESM) automation platforms using Java, Spring Boot, PostgreSQL and REST APIs reducing manual effort equivalent to 5–6 resources and saving approximately 6 operational hours per day across compliance operations.

• Architect and implement regulatory compliance automation workflows that improve response times by 90%, increase data visibility by 87%, and enable faster decision-making for business and regulatory stakeholders.

• Increase filing efficiency by 20% and reduce filing errors by 80% by automating validation, reconciliation, and reporting processes, eliminating manual intervention across critical compliance workflows.

• Build and maintain end-to-end data pipelines for file ingestion, validation, transformation, reconciliation, and output distribution using Spring Boot, SQL, and Shell Scripting, improving operational turnaround time and process reliability.

• Develop automated reconciliation solutions between multiple exchanges, integrating REST APIs and secure file transfer mechanisms to ensure accurate data synchronization, faster processing, and seamless exchange of regulatory data.

• Drive application modernization initiatives by migrating 100% of application queries, DDLs, stored procedures, and ETL workflows from Greenplum to Cloudera Data Platform (CDP Impala), ensuring platform compatibility, improving query performance, and enabling scalable data processing.

• Serve as Tech Lead for a cross-functional development team, mentoring junior engineers, conducting code reviews, driving technical design discussions, and enforcing unit testing best practices, resulting in an 80% reduction in production defects and improved release quality.

• Design and deliver scalable automation solutions for compliance reporting, workflow orchestration, data validation, and regulatory submissions using Java, Spring Boot, SQL, and Linux-based automation tools, strengthening operational governance and system reliability.

• Collaborate with business, operations, and compliance teams to identify automation opportunities, translate business requirements into technical solutions, and deliver high-impact applications aligned with regulatory and organizational objectives.

LOGICSERVE DIGITAL | Junior Associate (Feb 2021 – May 2023)

- Developed and maintained 15+ reusable AEM 6.5 components supporting 10+ Unilever brand websites.
- Led the migration of 30+ websites and digital assets across Adobe platforms.
- Improved website performance by 85–90% and increased SEO scores to 90%.
- Collaborated with global Unilever teams across Adobe platforms to deliver enterprise web solutions.
- Managed production support, debugging, cross-browser testing, and DQM issue resolution, resolving 10–15 issues monthly.

EDUCATION

Bachelor of Technology in Computer Science
K.C. College of Engineering and Technology
2015 - 2020

Higher Secondary Certificate (HSC)
Guru Nanak Khalsa College of Arts, Science & Commerce
2013 – 2015

RECOGONITIONS

- TCS- Best Team Award.
- TCS- Star of the Month Award

LANGUAGES

English, Hindi, Punjabi
